Born in Ujpest, Hungary, in 1919, George Jellinek began his musical career playing violin with gypsies in the family's garden restaurant. He spent his adolescence doing much the same, honing his talent and enriching his own musical education with frequent trips to the Hungarian Royal Opera House. But when Hitler and Chamberlain signed the Munich Pact in 1938, Jellinek's quiet life was shattered. How the exiled teenager survived World War II, worked his way up from a poor Hungarian immigrant in Cuba and became one of the most important and influential musical administrators in New York is an unconventional but truly American success story. This memoir documents the inspiring life of George Jellinek, beginning with his childhood in his beloved Hungary. The crisis of World War II soon invaded his life and, leaving behind his family and homeland, he fled west. Having been finally allowed to enter the United States, he was drafted into the U.S. Army in 1942, obligated to bear arms against the country of his birth. This ironic turn of events culminated in his firsthand role in the capture of Ferenc Szálasi, the leader of Hungary's Hitlerite faction. The latter half of the book reveals how music helped Jellinek piece back together his broken life in America. After rising to the post of musical director for radio station WQXR, he went on to become the producer and host of The Vocal Scene. His 36 years with that program established it as a revered fixture of New York's opera life. The epilogue documents the day on which Hungary's

president bestowed upon Jellinek the Knight's Cross of the Order of Merit of the Republic of Hungary.

This Is Our Music, declared saxophonist Ornette Coleman's 1960 album title. But whose music was it? At various times during the 1950s and 1960s, musicians, critics, fans, politicians, and

entrepreneurs claimed jazz as a national art form, an Afrocentric race music, an extension of modernist innovation in other genres, a music of mass consciousness, and the preserve of a cultural elite. This original and provocative book explores who makes decisions about the value of a cultural form and on what basis, taking as its example the impact of 1960s free improvisation on the changing status of jazz. By examining the production, presentation, and reception of experimental music by Ornette Coleman, Cecil Taylor, John Coltrane, and others, Iain Anderson traces the strange, unexpected, and at times deeply ironic intersections between free jazz, avant-garde artistic movements, Sixties politics, and patronage networks. Anderson emphasizes free improvisation's enormous impact on jazz music's institutional standing, despite ongoing resistance from some of its biggest beneficiaries. He concludes that attempts by African American artists and intellectuals to define a place for themselves in American life, structural changes in the music industry, and the rise of nonprofit sponsorship portended a significant transformation of established cultural standards. At the same time, free improvisation's growing prestige depended in part upon traditional highbrow criteria: increasingly esoteric styles, changing venues and audience behavior, European sanction, withdrawal from the marketplace, and the professionalization of criticism. Thus jazz music's performers and supporters—and potentially those in other arts—have both challenged and accommodated themselves to an ongoing process of cultural stratification.

Some may only know the jazz legend Stan Getz, tenor saxophonist, for his bossa nova hits "Desafinado" and "The Girl from Ipanema." However, Getz, born in 1927, began to play professionally at age 15, and his rich musical career lasted until shortly before his death on June 6, 1991. He played in a wide variety of musical settings such as big band, orchestral,

quartet, and duo. The incredible beauty of his sound sparked the late jazz great John Coltrane to say, "We would all play like Stan Getz, if we could." When Getz died, jazz trumpeter Dizzy Gillespie said, "He was sheer genius. And there's one thing about this man, he was the most melodic player on the jazz scene." This bibliography, the first of its kind, contains a total of 2,576 bibliographic citations with 2,292 of them annotated. It includes references to periodical literature, articles from news wire services, books, dissertations, films, videos, television programs, radio broadcasts, and Web sites. The citations are primarily from English-language sources. Materials in English and French as well as a handful of items from other languages are annotated. This work includes a preface that contains the scope of the work, a user's guide, and a list of more than 340 periodicals cited. The main body of the work is divided into the following sections: album reviews, performance reviews, discographies and discographical information, transcriptions, biographical and critical works, filmography, and appendix. Album reviews are provided for 240 albums, along with the discographical details for each of these albums. The appendix contains unannotated citations to materials in Danish, Dutch, German, Italian, Norwegian, Spanish and Swedish.
