Over seven chapters the book shows how international communication has been shaped by the structure of international political power and how these means of global communication have in turn been strategic tools for the exercise of international political power. There are separate chapters on global news flows, the international trade in cultural products (films, books, advertising, recorded music, periodicals and books), and government propaganda activities. The politics of the International Telecommunication Union (ITU), the Universal Postal Union (UPU) and the World Intellectual Property Organisation (WIPO) are analysed.

Nicknamed the International Express, the New York City Transit Authority 7 subway line runs through a highly diverse series of ethnic and immigrant neighborhoods in Queens. People from Andean South America, Central America, China, India, Italy, Korea, Mexico, Pakistan, Poland, Romania, and Vietnam, as well as residents of a number of gentrifying blue-collar and industrial neighborhoods, fill the busy streets around the stations. The 7 train is a microcosm of a specifically urban, New York experience, in which individuals from a variety of cultures and social classes are forced to interact and get along with one another. For newcomers to the city, mastery of life in the subway space is a step toward assimilation into their new home. In International Express, the French ethnographer Stéphane Tonnelat and his collaborator William Kornblum, a native New Yorker, ride the 7 subway line to better understand the intricacies of this phenomenon. They also ask a group of students with immigrant backgrounds to keep diaries of their daily rides on the 7 train. What develops over time, they find, is a set of shared subway competences leading to a practical cosmopolitanism among riders, including immigrants and their children, that changes their personal values and attitudes toward others in small, subtle ways. This growing civility helps newcomers feel at home in an alien city and builds what the authors call a "situational community in transit." Yet riding the subway can be problematic, especially for women and teenagers. Tonnelat and Kornblum pay particular attention to gender and age relations on the 7 train. Their portrait of integrated mass transit, including a discussion of the relationship between urban density and diversity, is invaluable for social scientists and urban planners eager to enhance the cooperative experience of city living for immigrants and ease the process of cultural transition.

*This book examines the economics of the postal sector through three lenses: snapshot and trends, models, and opportunities. In the years to come, the Universal Postal Union plans to develop its role as a knowledge centre for the postal sector from these perspectives. At this time of radical transformation of the postal sector, it is important to understand how the sector has evolved historically, how it is connected with the economic system, and where it is heading. This book thus first presents a long-run view, focusing on incumbent operators over the last three decades, and then describes their development in the last five to ten years. It also offers a real-time picture based on daily "big postal data", revealing one of the greatest opportunities for the sector in terms of forecasting and product design.*

*The New Edition of International Express Intermediate retains all the key features of this popular and successful four-level course. It combines engaging, up-to-date topics with a time-efficient and student-centred approach to language work, and clearly focused activities that reflect learners' real communicative needs - the ideal course for professional adults who use English for work, travel, and socializing.*

*'International Law' is designed to help you to relate all the reading and study throughout your course specifically to exam and assignment situations. Understand quickly what is required, organise your revision, and learn the key points with ease, to get the grades you need.*
