"JUST IN CASE" offers hope, healing, and triumph over difficult circumstances, while embracing through unwavering faith, life's simple joys and laughter.

An alternative future history. What might have been? If Nikita hadn't blinked. If children were allowed to "be all that they could be". If adults didn't waste their time and attention on memes and paradigms that are insanity. If I'd known. Shoulda, coulda, and woulda! The human race's millstone -- obsolete thinking. Here's what I think might have been possible.

A young Southern woman finds herself caught between the realm of the living and the forces of the afterlife in this supernatural fantasy series debut. As caregiver to her chronically ill sister, Vivian Bedford is reaching her wit's end. Then a freak accident, and a chance encounter with a dying man, turns her whole life upside down. A powerful connection has opened up between Vivian and the world of the spirits—a connection that comes with some serious responsibilities. Lazarus Darkmore, a grim reaper in a charming and seductive package, wants to recruit Vivian as a soul broker. Guardian spirits Ezra and Zeke offer protection from the reaper—so long as she works on their side of afterlife management. But these guardians are certainly no angels. Vivian has an ability that both the reapers and the guardians need. If she can control it, she can use this power as leverage. And she needs a bargaining chip, especially when she discovers that her disabled sister is a prime target for both sides of the afterlife. Informs parents how to distinguish between their child's normal emotional swings and serious problems that require therapeutic treatment, and acts as a guide to becoming a confident participant in a child's therapy

"A person dies. The soul runs away, but where does it go after death? Are heaven and hell real or just a hallucination? What are hell minions like? Where does the soul go after death? This book is about a soul's journey in the afterlife. There are multiple times that a soul passes through a body and yet no human can ever recall anything from his or her past life. Why the memory is wiped clean? The soul has to undergo a lot of processes once it leaves the body. During these procedures, the soul is transformed. A work on theology is never complete if does not touch base with GOD, the ultimate puzzle of all time. This book tries its best to stay away but God does not let it do so. He says, "You are in my domain. Better come voluntarily." "

In the tradition of *Wild* by Cheryl Strayed, comes a novel of two suburban women who decide to hike the Appalachian Trail, escaping their lives as moms and wives in search of nature, adventure, and the ultimate diet plan. How does a woman know what she wants after spending 20 years thinking about her husband and children? Sometimes it takes a distraction from everyday life, time to examine the forest before the trees become clear. With no previous camping experience, Andi and Jess begin the 2100-mile odyssey from Georgia to Maine. The friends figure life on the trail can't possibly be worse than dealing with disgruntled husbands, sullen teens home from college, and a general malaise that has crept up in their daily lives. At the very least, the women are bound to return home thin.

In 1986, after owning eleven BMWs in three years, Rob Siegel sent an unsolicited article to Roundel, the magazine of the BMW Car Club of America. Little did he know that it would kick off 35 years of do-it-yourself automotive writing, and that his monthly column The Hack Mechanic? would attract a community of like-minded enthusiasts who, like Rob, try to come up with creative workarounds to keep their cars running without taking them to the dealer every time they hiccup. More than just "use 10mm wrench on bolt B" instructions, though, the columns have always been small journeys into passion and problem solving, philosophy lessons disguised as a repair articles, and short stories about getting into and hopefully out of automotive trouble. The Best Of The Hack Mechanic? is a selection of these pieces, including ones on how to buy a vintage BMW and not get burned, the most creative way possible to lock your keys in a running car, why car folks will do just about anything to avoid buying a family minivan when the money obviously would be so much better spent on "something fun," why a car nut really does need seven cars, why the odds of having a car start is often

inversely proportion to the number of cars in the driveway, why finding one of his father's tools is enough to make Rob cry, and why working on your car feels so damned good, all written in Rob's Hack Mechanic voice that hovers somewhere between J.D. Salinger, Bill Bryson, and David Sedaris. Informative, irreverent, and poignant, *The Best Of The Hack Mechanic?* will have you hoping Rob has another 35 years of columns in him. "A call-to-action to everyone out there who wants to fight back." —Bustle  
"Scandal, justice, romance, sex positivity, subversive anti-sexism—just try to put it down." —Kirkus Reviews (starred review) "Cuts straight to the core of rape culture—masterfully fierce, stirring, and deeply empowering." —Amber Smith, New York Times bestselling author of *The Way I Used to Be*  
Three misfits come together to avenge the rape of a fellow classmate and trigger a change in the misogynist culture at their high school transforming the lives of everyone around them in this searing and timely story. Who are the Nowhere Girls? They're everygirl. But they start with just three: Grace Salter is the new girl in town, whose family was run out of their former community after her southern Baptist preacher mom turned into a radical liberal after falling off a horse and bumping her head. Rosina Suarez is the queer punk girl in a conservative Mexican immigrant family, who dreams of a life playing music instead of babysitting her gaggle of cousins and waitressing at her uncle's restaurant. Erin Delillo is obsessed with two things: marine biology and *Star Trek: The Next Generation*, but they aren't enough to distract her from her suspicion that she may in fact be an android. When Grace learns that Lucy Moynihan, the former occupant of her new home, was run out of town for having accused the popular guys at school of gang rape, she's incensed that Lucy never had justice. For their own personal reasons, Rosina and Erin feel equally deeply about Lucy's tragedy, so they form an anonymous group of girls at Prescott High to resist the sexist culture at their school, which includes boycotting sex of any kind with the male students. Told in alternating perspectives, this groundbreaking novel is an indictment of rape culture and explores with bold honesty the deepest questions about teen girls and sexuality.

Air conditioning in vintage cars often falls into disrepair, as owners figure that it never really worked all that well when it was new, and assume that rejuvenation would be prohibitively expensive. In his new book, *Just Needs a Recharge: The Hack Mechanic Guide to Vintage Air Conditioning*, Rob Siegel details exactly what's needed to resurrect long-dead air conditioning in a vintage car, or install a/c in a car that never had it. In a level of detail not found in any other automotive a/c book, Rob reveals what you need to know about flare and o-ring fittings, upgrading to a rotary-style compressor and a parallel-flow condenser, making or specifying custom hoses, and selecting refrigerant so that the a/c blows cold enough to be usable. Although the book draws from Rob's BMW experience (with specifics for the BMW 2002 and 3.0CS), and concentrates on vintage a/c systems (those that have flare fittings and originally contained R12), most of the information applies to any air conditioning system, foreign or domestic, vintage or modern. Written in Rob's entertaining Hack Mechanic narrative voice, and including 240 photographs and illustrations, the book covers theory, the choice of refrigerant (R12, R134a, other EPA-approved, non-EPA-approved), legality, tools for a/c work, fittings and sizes, the compressor, the evaporator assembly

and expansion valve or orifice tube, the condenser and fan, the receiver/drier or accumulator, electrical connections and compressor cycling, connecting and using manifold gauges, the basic steps for a/c rejuvenation, from-scratch a/c retrofit, making and installing hoses, flushing the system, pressure-testing and leak detection, evacuating and charging the system troubleshooting, and other things that heat up the cabin.

Xellous "Zell" Rozen is a paranormal anthropologist. He spends his nights studying the strange and unusual things that go bump in the night. All this while dealing with what has become a love quadrangle. But it's all in a day's work for Zell. Not literally, of course. This was over a course of a few days. Ah'Mahn and his clan of Djinn fled their realm and entered into the world of humans to escape persecution and start a new life. But when slavers captured the clan and bound each one to an item so that they would be forced to serve their masters, the tribe was again in danger, even more so than before. After centuries of imprisonment, Ah'Mahn has vowed to recover his brethren that have been scattered across the globe and break the bonds placed upon them. Or at least, he'll destroy himself trying.

To most people, cars are just appliances to be disposed of when they rust, become unreliable, or are outgrown. But to car people, it's different. Cars are

like photographs that occupy physical space. They hold aromas that trigger memories, and remind us of who we once were. In addition, to some people, the relationship with the car itself is a real thing. Many enthusiasts pine for the cars of their youth, regret that they ever let them go, and yearn and search for them the way people do with old lovers, hoping to find them and rekindle that old spark. In *Resurrecting Bertha*, Rob Siegel assures you that this is normal (well, as normal as anything is with car people), and embarks on this journey himself. Writing in his trademark Hack Mechanic voice that's enthralled readers for 35 years, Rob describes his original eight-year relationship with his highly-modified 1975 BMW 2002 "Bertha," selling the car to a dear friend, its 26 years of storage, and buying it back in a weak whisky-soaked moment only to experience the "oh dear God what did I just do" regret when he raises the long-closed garage door and comes face-to-face with the badly deteriorated car. The book details the steps Rob went through to get the car running, then driving, then sufficiently sorted to make a 2000-mile drive, and how the reconnection with the car was so much deeper than he expected. *Resurrecting Bertha* is about more than just the nuts and bolts; it's about deciding what's important, the joy of doing good, and how, if you do it right, not only can you go home again, but you can do so in the same car.

My name is Mac Brennan and that's the only thing I can remember about myself. Not why I woke up in a dumpster. Not why my right arm is as black as pitch and covered in glowing red tattoos, and certainly not why a vicious death cult is after me. Actually, that last part isn't true. I know why the death cult is after me. It's because I saved that damned girl from them. I didn't know who she was at the time, but I'd have done it anyway. I just don't like it when girls get beat up, call me old fashioned. Still, I can tell she's hiding something behind those devilish eyes, and if I want to find out what it is, I'll have to help her. My name is Mac Brennan. I have no memory, and I'm a werewolf-hunting, hellfire-flinging version of Faust himself.

*Science to build a starship. Wizardry to take it past light speed. A crew to give it a soul. The Mobius is a cobbled-together ship with a matching crew. Captain Carl Ramsey is an ex-Earth Navy pilot whose crew won't let him fly his own ship. The pilot is his ex-wife, the mechanic is a drunk, and the chief of security is from a predatory species. Instead of a star-drive to travel through the astral space between worlds, the ship's wizard does it by hand. Mission 1: Salvage Trouble A salvage mission turns into a rescue, and no good deed goes unpunished. With two refugees onboard, the Mobius crew is hounded by bounty hunters, border partols, and corporate enforcers. Mission 2: A Smuggler's Conscience "Don't open the*

package." It's the smuggler's credo for good reason. When the Mobius crew takes a peek at their illicit cargo, the entire job takes an about-face. *Mission 3: Poets and Piracy* The Mobius crew gets caught in a turf war between a pirate fleet and a galactic criminal syndicate. The trick is getting everyone out alive (and maybe getting paid in the process). *Mission 4: To Err is Azrin* Sometimes you can't go home again. When a job takes the crew to their security chief's homeworld, she gets dragged into a familial power struggle. Can the rest of the crew bail her out of an old feud gone horribly wrong? *Bonus Short Story: Guardian of the Plundered Tomes* Mordecai The Brown has been on the run from the Convocation for decades. How does a respectable wizard with a wife and two kids end up crisscrossing the galaxy in the company of outlaws? *Black Ocean* is a science fantasy series set in the 26th century. Do you wish there had been a second season of *Firefly*? Do you love the irreverent fun of *Guardians of the Galaxy*? Have you ever wondered how *Star Wars* would have turned out if Luke and Obi-wan had ditched the rebellion to become smugglers with Han and Chewie? Then *Black Ocean* is the series for you! Pick up your copy and aim to misbehave with the crew of the Mobius!

In 2013, Rob Siegel (a.k.a. "The Hack Mechanic") wandered waaaaay outside of his German car comfort zone and blew the advance from his first book on a car that captivated him as an adolescent--a 1974 Lotus Europa Twin Cam Special. The car hadn't been on the road since 1979, had a seized engine, and was purchased sight-unseen, but it was complete and had only 24,000 miles on it. In the week after it arrived, Rob feverishly ripped out the drivetrain, but the project soon ran into molasses due to the fact that all options for rebuilding or replacing the low-production Lotus-Ford Twin Cam engine would've cost more than he'd paid for the car. It was six years before the car was running, during which Rob lost his job and changed careers, necessitating that if work on the Lotus proceeded at all, costs needed to be relentlessly contained. All of this was chronicled on Facebook in a series of posts titled "The Lotus Chronicles," in which Rob's friends and acquaintances--the Hack Mechanic faithful--chimed in on the process, offering advice, encouragement, ridicule, scorn, every Lucas joke known to man and woman, and insight on why Lotus really does stand for "lots of trouble, usually serious." *The Lotus Chronicles* is a collection of those posts, woven together with sections providing context and perspective. It's about passion, perseverance, the balance between "doing it right" and getting 'er done, what it takes to drag a project across the finish line, and coming to finally understand an offhand comment a man made to Rob when he first saw that Europa when he was 13 years old: "A car like that, you can get SEX out of." For the first time ever, get all four books in the "Mages of Martir" sword and sorcery series--*The Mage's Grave*, *The Mage's Limits*, *The Mage's Sea*, and *The Mage's Ghost*--in one convenient package! In the *Mages of Martir* series, follow Darek Takren, a mage at the prestigious North Academy school of magic, and Durima, a minor spirit who works for the gods, as they clash with the evil entity known as Uron, who seeks to destroy all of Martir, and his various allies. At 50% of the price of buying all four books individually, it's a great deal for any fantasy fan. Also includes the *Mages of Martir* short story *What Sharks Hide From*, available in ebook format for the first time ever. This short story follows Archmage Yorak and her pupil Auratus as they investigate a mysterious occurrence near their school, but soon find themselves in the fight for their lives against a ruthless foe. This collection also includes the first chapter of Timothy L. Cerepaka's upcoming novel, *Gathering of the Chosen!* **KEYWORDS:** Epic Fantasy, Swords and Sorcery, Epic Fantasy Mystery, Swords and Sorcery Magic, Epic Fantasy Swords and Sorcery Adventure, Fantasy Magic School, Mage, Fantasy Gods, Fantasy Deities, Fantasy Collection, Fantasy Omnibus
