This new edition of Diagnostic and Statistical Manual of Mental Disorders (DSM-5®), used by clinicians and researchers to diagnose and classify mental disorders, is the product of more than 10 years of effort by hundreds of international experts in all aspects of mental health. Their dedication and hard work have yielded an authoritative volume that defines and clarifies criteria to improve diagnoses, treatment, and research. The criteria are concise and explicit, intended to facilitate an objective assessment of symptom presentations in a variety of clinical settings -- inpatient, outpatient, partial hospital, consultation-liaison, clinical, private practice, and primary care. New features and enhancements make DSM-5® easier to use across all settings. Reflects a lifespan approach, with disorders typically diagnosed in childhood (such as neurodevelopmental disorders) at the beginning of the manual, and those more typical of older adults (such as neurocognitive disorders) placed at the end. Also included are age-related factors specific to diagnosis. The latest findings in neuroimaging and genetics have been integrated with gender and cultural considerations. The revised organizational structure recognizes symptoms that span multiple diagnostic categories, providing new clinical insight in diagnosis. Specific criteria have been streamlined, consolidated, or clarified to be consistent with clinical practice (including the consolidation of autism disorder, Asperger's syndrome, and pervasive developmental disorder - the streamlined classification of bipolar and depressive disorders; the restructuring of substance use disorders for consistency and clarity; and the enhanced specificity for major and mild neurocognitive disorders). Dimensional assessments for research and validation of clinical results have been provided. Both ICD-9-CM and ICD-10-CM codes are included. The organizational structure is consistent with the new ICD-11 in development. The Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition, is the most comprehensive, current, and critical resource for clinical practice available to today's mental health clinicians and researchers of all orientations. The information contained in the manual is a

An easy-to-use and comprehensive full-colour guide designed to take students through each stage of their studies and achieve the best possible results in the new National 5 accounting qualification.

Cover every base with the complete resource for National 4 & 5 Geography endorsed by SQA! One of a three-book series, this title offers detailed, comprehensive and rigorous coverage of the human environment elements in National 4 and 5 Geography. - Ensure understanding with end-of-chapter questions for each topic at N4 and N5 levels - Promote Active Learning with each chapter - Engage students with a full-colour, accessible format

For any organization to be successful, it must operate in such a manner that knowledge and information, human resources, and technology are continually taken into consideration and managed effectively. Business concepts are always present regardless of the field or industry - in education, government, healthcare, not-for-profit, engineering, hospitality/tourism, and other industry professionals seeking to understand the latest tools to emerge from this field and who are looking to incorporate them in their practice. Additionally, academicians, researchers, and students in fields that include but are not limited to business, management science, organizational development, entrepreneurship, sociology, corporate communication, and information technology will benefit from the research compiled within this publication.

These reports summarize the current state of what is known about various health and healthcare issues that affect the United States. An introductory chapter gives an overview of the report as a whole, along with a look at the science and preparation of the report. Along with the findings, reports may present directories of related resources.

The National 5 Business Management Course Notes help teachers and students map their route through the CfE programme, providing comprehensive and authoritative guidance. Course Notes give a practical, supportive approach to help deliver the new curriculum and offer a blend of sound teaching and learning with exam and assessment guidance.

[Caffeine for the Sustainment of Mental Task Performance](#)

This report from the Committee on Military Nutrition Research reviews the history of caffeine usage, the metabolism of caffeine, and its physiological effects. The effects of caffeine on physical performance, cognitive function and alertness, and alleviation of sleep deprivation impairments are discussed in light of recent scientific literature. The impact of caffeine consumption on various aspects of health, including cardiovascular disease, reproduction, bone mineral density, and fluid homeostasis are reviewed. The behavioral effects of caffeine are also discussed, including the effect of caffeine on reaction to stress, withdrawal effects, and detrimental effects of high intakes. The amounts of caffeine found to enhance vigilance and reaction time consistently are reviewed and recommendations are made with respect to amounts of caffeine appropriate for maintaining alertness of military personnel during field operations. Recommendations are also provided on the need for appropriate labeling of caffeine-containing supplements, and education of military personnel on the use of these supplements. A brief review of some alternatives to caffeine is also provided.

Practise for your SQA exams with three specially commissioned Hodder Gibson Practice Exam Papers with fully worked answers. - Practise with model papers written and checked by experienced markers and examiners - Worked answers show how solutions are arrived at and where marks are gained - Get extra advice with study-skills guidance sections - Avoid common mistakes with examiner tips - A revision grid allows students to revise by topic

Exam Board: SQA Level: National 5 Subject: Geography First Teaching: September 2017 First Exam: Summer 2018 This second edition now includes N5 examination-style questions, together with detailed advice on answering them, as well as exemplar answer, included for every topic. - Now includes the Natural Regions topic - Covers Climate Change, Health and Environmental Hazards - Natural Regions topic takes the place of Trade and Globalisation

Exam Board: SQA Level: National 4 Subject: Maths First Teaching: September 2013 First Exam: June 2014 Teach lessons that suit the individual needs of your students with this SQA endorsed and flexibly structured resource that provides a suggested approach through all three units. This textbook completely covers the latest National 4 syllabus. Each chapter includes summaries of key points and worked examples with explanatory notes showing how skills are applied. Section Reviews presented in non-calculator and calculator formats provide students with the opportunity to consolidate skills acquired over a number of chapters. There are plenty of exercises and invaluable exam practice throughout to help build confidence and knowledge. Although core answers are provided in the textbook, a corresponding teacher's 'Answers and Assessment' book is also available, including expanded answers plus sample assessment material for practice. - Covers the new specification with all the new topics in the SQA examinations - Provides thorough exam preparation, with graded Practice Exercises - Organised to make it easy to plan, manage and monitor student progress
