"Texts must be interesting enough for students to want to read them in their own language. Otherwise, how can we expect students to want to read them in English?" This is the authors' golden rule when they choose texts and topics for every level of American English File. It ensures you get material that learners will enjoy reading and will want to talk about. Texts such as "Could you live without money?" really help to generate opinion and discussion. They create a desire to communicate. Having created the desire, American English File then helps you to develop learners' communication skills. One way it does this is with a strong focus on pronunciation. Research shows that poor pronunciation is a major contributor to breakdowns in communication (Jennifer Jenkins: The Phonology of English as an International Language). American English File integrates pronunciation into every lesson - the "little and often" approach. But that's not all. The unique English File Sounds Chart puts a picture to each sound in the phonetic alphabet, so learners find it easier to remember the sounds and, ultimately, improve their pronunciation.

**The Intermediate coursebook that gets students talking, and that helps teachers and students more than any other.**

**This book advocates a new approach to pronunciation teaching, in which the goal is mutual intelligibility among non-native speakers, rather than imitating native speakers. It will be of interest to all teachers of English as an International Language, especially Business English. It proposes a basic core of phonological teaching, with controversial suggestions for what should be included.**
