Great for teachers and homeschooling! Over 75 daily division drill worksheets covering 0-13 division facts. Includes all answer keys! Daily timed math drills provide the repetition needed to memorize math facts and develop math fluency. Use these reproducible worksheets for skill development or testing. Teachers and parents may reproduce these timed math tests as needed for their students and children. This workbook uses an instructional process that the Author has successfully utilized over 25

years as a math instructor. This unique method builds math skills daily while reinforcing math facts learned on prior days. First, students practice timed division facts involving 0 - 10. Then, division facts of numbers 11 - 13 are introduced. Four days in a row, students practice each new number, followed by two cumulative drills. Using this repetitive process, students gradually build their 0-13 division skills. Set a goal for students to complete one timed-division drill per day. Keep track of the time as well as the number of problems answered correctly. Between drills, students may

review the division tables provided at the front of the workbook. Encourage your students to decrease their time while increasing the number of problems answered correctly. Make math fun - set goals and reward students for their progress!

educators in the K-12 setting face the daunting responsibility of finding balance between mandated testing, students' mental-health concerns, and additional academic help for at-risk students. One solution to this dilemma is to implement a school-based mental health approach that combines learning and counseling needs into a single program. Several types of successful programs are available, though week-
