

The Big Book Of Home Learning

A number book like no other, introducing children to the significance of different numbers and the things they are associated with. Did you know that an octopus has 3 hearts, every snowflake has 6 points, giraffes have 7 bone in their necks, cloud cover is measure in 'oktas' from 0 to 8, and that 9 is lucky in China (but unlucky in Japan)? An unusual approach to a numbers book and a gorgeous and slightly eccentric illustration style will make this title stand out in a crowded retail environment. By the team who worked together on the acclaimed My First 100 Words Book, Count to 100 and the award-winning Big Book of Colours (winner of the School Library Association's Under 7 Children's Choice Award 2016). An effortless and enjoyable way for children to learn about topics as diverse as fractions, counting, shapes, measuring, music, dates, animals, space, sports, geography and mythology through the magic of numbers.

Boris Johnson, the UK's new Prime Minister, has ruled out holding an early general election. But, as we've seen, anything can happen in today's politics. There are few politicians who could genuinely be described as a phenomenon. Boris Johnson is undoubtedly one. With a shake of that foppish blond mop, a glimmer of his madcap smile and the voice of a demented public school boy, Boris provides comedy gold every time he opens his erudite mouth. The allure of this blundering rascalion to many on the Tory benches and to the membership of the Conservative Party at large is all too obvious. He says what few others will say in public and, indeed, he will do so on the record – appearing to care little what people think of him or his views. This book is big on fun, comedy, life and spirit. Containing a selection of the very finest Boris-isms and illustrated by specially commissioned cartoons, The Big Book of Boris is a highly amusing read, straight from the gaffe-strewn mouth of Britain's most colourful politician.
