The President

Published in advance of the complete annual report.

Vital perspectives for the divided Trump era on what the Constitution's framers intended when they defined the extent—and limits—of presidential power One of the most vexing questions for the framers of the Constitution was how to create a vigorous and independent executive without making him king. In today's divided public square, presidential power has never been more contested. The President Who Would Not Be King cuts through the partisan rancor to reveal what the Constitution really tells us about the powers of the president. Michael McConnell provides a comprehensive account of the drafting of presidential powers. Because the framers met behind closed doors and left no records of their deliberations, close attention must be given to their successive drafts. McConnell shows how the framers worked from a mental list of the powers of the British monarch, and consciously decided which powers to strip from the presidency to avoid tyranny. He examines each of these powers in turn, explaining how they were understood at the time of the founding, and goes on to provide a framework for evaluating separation of powers claims, distinguishing between powers that are subject to congressional control and those in which the president has full discretion. Based on the Tanner Lectures at Princeton University, The President Who Would Not Be King restores the original vision of the framers, showing how the Constitution restrains the excesses of an imperial presidency while empowering the executive to govern effectively.

A provocative guide to the First Families from the Kennedys to the Reagans examines the different and important roles that family members play in presidential politics.

The President's Murderer Level 1 Oxford Bookworms Library

A level 1 Oxford Bookworms Library graded readers. Written for Learners of English by Jennifer Bassett. The President is dead! A man is running in the night. He is afraid and needs to rest. But there are people behind him – people with lights, and dogs, and guns. A man is standing in front of a desk. His boss is very angry, and the man is tired and needs to sleep. But first he must find the other man, and bring him back – dead or alive. Two men: the hunter and the hunted. Which will win and which will lose? Long live the President!

Maggie Costello uncovers an assassination plot to kill the tyrannical new president. A blockbuster thriller from No.1 Sunday Times bestselling author Sam Bourne. The unthinkable has happened… The United States has elected a volatile demagogue as president, backed by his ruthless chief strategist, Crawford 'Mac' McNamara. When a war of words with the North Korean regime spirals out of control and the President comes perilously close to launching a nuclear attack, it's clear someone has to act, or the world will be reduced to ashes. Soon Maggie Costello, a seasoned Washington operator and stubbornly principled, discovers an inside plot to kill the President – and faces the ultimate moral dilemma. Should she save the President and leave the free world at the mercy of an increasingly crazed would-be tyrant – or commit treason against her Commander in Chief and risk plunging the country into a civil war?

In time for the 2015 presidential election cycle, this revised paperback edition is the most comprehensive, up-to-date guide on the presidents and includes the milestones of Barack Obama's first and second terms. The Presidents Fact Book is a complete compendium of all things presidential and a sweeping survey of American history through the biographical lens of every president from George Washington to Barack Obama. Organized chronologically by president, each entry covers the major accomplishments and events of the presidential term; cabinet members, election results, groundbreaking legislation, and Supreme Court appointments; personality and personal habits; career before the presidency; a behind-the-scenes look at the wives, families, friends, and foes; and much more, including hobbies, odd behaviors, and outlandish penchants. Major primary documents from each administration—from the Bill of Rights to Barack Obama's speech on race in America—provide a glimpse into the crucial moments of America's storied past in the words of those who were at the helm. Perfect for students, history buffs, and political junkies, The President's Fact Book is at once an expansive collage of our nation's 44 individual presidents and a comprehensive view of American history.

The President and the Assassin

A Novel

"From the acclaimed author of Cantoras comes a mystical and heartening tale about seeking justice and the power of memory. In his modest home at the edge of town, the former President of a Latin American country receives a journalist in his iconic gardens to discuss his legacy and the dire circumstances that threaten democracy around the globe. Once known as the Poorest President in the World, his reputation is the stuff of myth: a former guerilla who was jailed for inciting revolution before becoming the face of justice, human rights, and selflessness within his nation. And yet, he is tempted to reveal a secret from his past: while he was imprisoned and held in solitary confinement-due to madness or in a surreal twist-he survived in part by conversing with the only creature who ever spoke back, a loud-mouth frog, about revolution, the quest for dignity, and what it means to love a country. As engrossing as it is innovative, The President and the Frog explores the resilience of the human spirit and what is possible when danger looms. Ferrying us between a grim jail cell and lush garden, De Robertis emphasizes that even the smallest voice can change the world. Vivid, heartfelt, and full of wit and humor, The President and the Frog reaches beyond all borders and dares us to be human in the face of chaos"--

Shall We Tell the President is an enthralling, fast-paced thriller from the bestselling author of Kane and Abel, Jeffrey Archer. 6 days, 13 hours and 37 minutes to go . . . At the end of The Prodigal Daughter, Florentyna Kane is elected President – the first woman President of the United States. At 7.30 one evening the FBI learn of a plot to kill her – the 1572nd such threat of the year. At 8.30 five people know all the details. By 9.30 four of them are dead. FBI agent Mark Andrews alone knows when. He also knows that a senator is involved. He has six days to learn where – and how. Six days to prevent certain death of the President.

Every president has had a unique and complicated relationship with the intelligence community. While some have been coolly distant, even adversarial, others have found their intelligence agencies to be among the most valuable instruments of policy and power. Since John F. Kennedy's presidency, this relationship has been distilled into a personalized daily report: a short summary of what the intelligence apparatus considers the most crucial information for the president to know that day about global threats and opportunities. This top-secret document is known as the President's Daily Brief, or, within national security circles, simply "the Book." Presidents have spent anywhere from a few moments (Richard Nixon) to a healthy part of their day (George W. Bush) consumed by its contents; some (Bill Clinton and George H. W. Bush) consider it far and away the most important document they saw on a regular basis while commander in chief. The details of most PDBs are highly classified, and will remain so for many years. But the process by which the intelligence community develops and presents the Book is a fascinating look into the operation of power at the highest levels. David Priess, a former intelligence officer and daily briefer, has interviewed every living president and vice president as well as more than one hundred others intimately involved with the production and delivery of the president's book of secrets. He offers an unprecedented window into the decision making of every president from Kennedy to Obama, with many character-rich stories revealed here for the first time.

Economic Report of the President

Cooper defines the different forms these powers take--executive orders, presidential memoranda, proclamations, national security directives, and signing statements--demonstrates their uses, critiques their strengths and dangers, and shows how they have changed over time. Here are Washington's "Neutrality Proclamation," Lincoln's Emancipation Proclamation, and the more than 1,700 executive orders issued by Woodrow Wilson in World War I. FDR issued many executive orders to implement his National Industrial Recovery Act--but also issued one that led to the incarceration of Japanese Americans during World War II. Truman issued orders to desegregate the military and compel loyalty oaths for federal employees. Eisenhower issued numerous national security directives. JFK launched the Peace Corps and issued an order to control racial violence in Alabama. All through executive action.

Do presidents inevitably lose support the longer they are in office? Does the public invariably rally behind presidents during international crises? What are the criteria by which the public forms its judgment about whether or not the president is doing a good job? And what is the role of daily news reporting and elite opinion in shaping the public's perception of the president's performance? This book addresses these questions and many others surrounding the dynamics of fluctuating public support for the president of the United States. Drawing its case material from the modern presidency from Kennedy through Reagan, with looks backward as far as Truman, this innovative work shows how the standing of the president with the American people has come to have a political life of its own. The author first examines two seemingly distinctive periods of opinion formation: the 'honeymoon' at the beginning of a presidential term and the 'rally' of presidential support that accompanies international crises. He then analyzes two previous explanations of public support - length of term in office and the state of the economy - and concludes that these explanations are, respectively, incorrect and incomplete. The author presents a model of information processing that ties public support to indications of policy success or failure brought to the attention of the public through daily news reporting by the media. The model is tested initially for the presidencies of Kennedy, Johnson, Nixon, and Ford; it is then refined and tested further for the Carter and Reagan presidencies.

An account of the 25th President's assassination places events against a backdrop of a rapidly changing, newly industrial nation that McKinley regarded as increasingly great while his assassin, Czolgosz, became obsessed with his views on poverty, injustice and social revolution.

The President's Report

A photojournalist presents photographs of Ronald and Nancy Reagan, from the gubernatorial campaign in 1966 through 1998, and recounts his experiences while taking the pictures and his observations of their relationship.

Sander chronicles changes in the Executive Office of the President (EOP) paralleling change and expansion in the federal government, the executive branch, and the office of the president, from its inception to the end of the Truman administration. . . . In his intriguing analysis of the historical dialectic surrounding theoretical questions about EOP Sander shines, showing the multi-colored underwear of a gray-flannel organization. The EOP becomes the playing field of a dynamic contest among differing constitutional and theoretical views. Sander has written a book about what could be a dull and lifeless topic, and made it enjoyable. Choice The creation of a staff to aid the chief executive in his immense management task was a crucial element in the development of the modern presidency. Focusing on the period that witnessed the most extensive changes in the executive branch, this book traces the evolution of the executive office of the President, and looks at the complex ways in which this organization has affected both the president's role and the operation of the federal government. Sander explores the political and administrative issues raised by the creation of a separate corps of careerists serving the president and independent of the departments and concludes with an assessment of various proposals aimed at reorganizing and controlling the appointment and functions of the presidential staff. Following a historical overview of major shifts in the presidential role, the author discusses the gradual increase in presidential staff and institutional support that occurred in the 1920s. Sander next examines the evolution of Roosevelt's executive office and the important precedents that were set during his administration. The primary focus of the book is on the major expansion of the presidential staff that occurred during Truman's tenure. When Truman left office, the basic staff services that enable the president to carry out his duties were in place. These were the Bureau of the Budget, the Council of Economic Advisors, the National Security Resources Board, and the National Security Council. Providing new insights on the forces and events that have shaped the institution of the presidency, this book will be of particular interest to those in the fields of political science, American political history, American public policy and public administration.

SOON TO BE A MAJOR TV SERIES STARRING DAVID OYELOWO 'The dream team delivers big time ... Clinton's insider secrets and Patterson's storytelling genius make this the political thriller of the decade.' – Lee Child _____ The President is missing. As an unprecedented cyberterrorist attack cripples the United States, the President must face an unthinkable truth: There is a traitor in his Cabinet. His life is in danger. And the only way to stay ahead of the shadowy forces tearing at the heart of America is to go off the grid, leaving behind his presidential protection. The President must go missing – and he may never resurface... Set over the course of three days that shake a nation to its core, The President is Missing sheds a stunning light upon the inner workings and vulnerabilities of the American government. Filled with information that only a former President could know, this is the most authentic, terrifying thriller in years. _____ Includes an extract from the next blockbuster, The President's Daughter. This book was recently reissued with a new cover and bonus extract, so stock may vary. _____ 'A bullet train of a thriller. The Day of the Jackal for the twenty-first century.' – A.J. Finn, author of The Woman in the Window 'This book moves like Air Force One. Big and fast.' – Michael Connelly, author of the Harry Bosch series 'The President Is Missing is a big, splashy juggernaut of a novel, combining thrills with a truly authentic look at the inner happenings in Washington. I read it in one gulp. You will too.' – Harlan Coben, #1 bestselling author of Don't Let Go 'Yes, The President is Missing is fiction – it's a thriller – but James Patterson and I have come up with three of the most frightening days in the history of the presidency. And it could really happen... These days, the seemingly impossible can happen. And it happens so fast. I believe that readers will not soon forget President Jonathan Duncan and his story.' – Bill Clinton 'Needless to say, we had some great conversations about the presidency, what life in Washington is really like, and about the state of America and the rest of the world.' – James Patterson 'I felt like I was right along with the characters for the shocking twists and turns you'll never guess are coming. Patterson and Clinton have created a truly unique character in their 'missing' President. The President is Missing puts the listener inside the White House and inside the mind of a President grappling with extraordinary circumstances.' – Dennis Quaid on the audiobook of The President is Missing 'Relentless in its plotting and honest in its examination of issues that strike close to our hearts.' – Jeffery Deaver 'A first-rate collaboration from a couple of real pros! Engrossing from page one.' – David Baldacci 'The President is Missing is more than a thriller – it's a skeleton key that lets you inside the head of a U.S. president.' – Brad Meltzer, author of The Escape Artist 'From the pens of two American icons comes a political thriller that rocks... a helluva story.' – Nelson DeMille, author of The Cuban Affair 'The President Is Missing is heart-pounding, gripping, terrifying... a genuinely masterful thriller. My knuckles are still white!' – Louise Penny, #1 bestselling author of Glass Houses 'Marry the political savvy of Bill Clinton with the craftsmanship of James Patterson and you get a fabulously entertaining thriller that is meticulous in its portrayal of Washington politics, gripping in its pacing, and harrowing in its depiction of the perils of cyberwarfare.' – Ron Chernow, #1 bestselling and Pulitzer Prize-winning author of Alexander Hamilton and Grant
