

## The Spirit Eater

*An in-depth look at the role of plant spirits in shamanic rituals from around the world • Shows how shamans heal using their knowledge of plant spirits as well as the plant's "medical properties" • Explores the core methods of plant shamanism--soul retrieval, spirit extraction, and sin eating--and includes techniques for connecting with plant spirits • Includes extensive field interviews with master shamans of all traditions In Plant Spirit Shamanism, Ross Heaven and Howard G. Charing explore the use of one of the major allies of shamans for healing, seeing, dreaming, and empowerment--plant spirits. After observing great similarities in the use of plants among shamans throughout the world, they discovered the reason behind these similarities: Rather than dealing with the "medical properties" of the plants or specific healing techniques, shamans commune with the spirits of the plants themselves. From their years of in-depth shamanic work in the Amazon, Haiti, and Europe, including extensive field interviews with master shamans, Heaven and Charing present the core methods of plant shamanism used in healing rituals the world over: soul retrieval, spirit extraction, sin eating, and the Amazonian tradition of pusanga (love medicine). They explain the techniques shamans use to establish connections to plant spirits and provide practical exercises as well as a directory of traditional Amazonian and Caribbean healing plants and their common North American equivalents so readers can explore the world of plant spirits and make allies of their own.*

**'What is a self and how can a self come out of inanimate matter?' This is the riddle that drove Douglas Hofstadter to write this extraordinary book. In order to impart his original and personal view on the core mystery of human existence - our intangible sensation of 'I'-ness - Hofstadter defines the playful yet seemingly paradoxical notion of 'strange loop', and explicates this idea using analogies from many disciplines.**

**An old adage says there are really only two stories: a man goes on a voyage, and a stranger arrives in town. This is the third: a woman breaks the rules . . . Set in a thinly disguised sixteenth-century England, Megan Campisi's *The Sin Eater* is a wonderfully rich story of treason and treachery; of women, of power, and the strange freedom that comes from being an outcast - because, sometimes, being a nobody sometimes counts for everything . . . A Sin Eater's duty is a necessary evil: she hears the confessions of the dying, eats their sins as a funeral rite. Stained by these sins, she is shunned and silenced, doomed to live in exile at the edge of town. Recently orphaned May Owens is just fourteen, only concerned with where her next meal is coming from. When she's arrested for stealing a loaf of bread, however, and subsequently sentenced to**

*become a Sin Eater, finding food is suddenly the last of her worries. It's a devastating sentence, but May's new invisibility opens new doors. And when first one then two of the Queen's courtiers suddenly grow ill, May hears their deathbed confessions - and begins to investigate a terrible rumour that is only whispered of amid palace corridors . . . Can you uncover the truth when you're forbidden from speaking it? 'A dark and thrilling page-turner that turns a dystopian eye on the past in an unnervingly contemporary way. All hail Megan Campisi' - Emma Donoghue, bestselling author of Room and The Pull of the Stars*

*Eli Monpress is talented. He's charming. And he's a thief. But not just any thief. He's the greatest thief of the age, and he's also a wizard. And with the help of his partners - a swordsman with the most powerful magic sword in the world, and a demonseed who can step through shadows and punch through walls - he's going to put his grand plan into effect. Because Eli won't rest until he's amassed a fortune. Step one in his plan is to increase the bounty on his head, so he'll need to steal some big things. He'll start small for now though: he'll just steal something that no one will miss - at least for a while. Like a king . . . Company have been serving the Empire in military engagements against the Cielcin, the vicious alien civilisation bent on humanity's destruction. And they've been successful: a cult-like fervour building around Hadrian following a particularly impressive victory. But popularity comes at a price: an assassination attempt, triggered by those within the Imperial government who are scared of his rise to prominence. Now the Empire has turned dangerous, Hadrian and his crew leave to pursue his true interest: a search for a long-rumoured connection between the first Emperor and the Quiet: the ancient, seemingly long-dead race. And he will find the next key to unlocking their secrets in a massive library on a distant world. The coordinates for their origin planet. Eli Monpress is clever, he's determined, and he's in way over his head. First rule of thievery: don't be a hero. When Eli broke the rules and saved the Council Kingdoms, he thought he knew the price, but resuming his place as the Shepherdess's favorite isn't as simple as bowing his head. Now that she has her darling back, Benehime is setting in motion a plan that could destroy everything she was created to protect, and even Eli's charm might not be enough to stop her. But Eli Monpress always has a plan, and with disaster rapidly approaching, he's pulling in every favor he can think of to make it work, including the grudging help of the Spirit Court's new Rector, Miranda Lyonette. But with the world in panic, the demon stirring, and the Lord of Storms back on the hunt, it's going to take more than luck and charm to pull Eli through this time. He's going to have to break a few more rules and work with some old enemies if he's going to survive.

Eli Monpress is brilliant. He's incorrigible. And he's a thief. He's also still at large, which drives Miranda Lyonette crazy. While she's been kicked out of the Spirit Court, Eli's had plenty of time to plan his next adventure. But now the tables have turned, because Miranda has a new job - and an opportunity to capture a certain thief. Things are about to get exciting for Eli. He's picked a winner for his newest heist. His target: the Duke of Gaol's famous 'thief-proof' citadel. Eli knows Gaol is a trap, but what's life without challenges? Except the Duke is one of the wealthiest men in the world, a wizard who rules his duchy with an iron fist, and an obsessive perfectionist with only one hobby: Eli. 'A must-read ... satisfying, rich ... loaded with flavour' Sunday Telegraph This book is a celebration of food. By food, Michael Pollan means real, proper, simple food - not the kind that comes in a packet, or has lists of unpronounceable ingredients, or that makes nutritional claims about how healthy it is. More like the kind of food your great-grandmother would recognize. In *Defence of Food* is a simple invitation to junk the science, ditch the diet and instead rediscover the joys of eating well. By following a few pieces of advice (Eat at a table - a desk doesn't count. Don't buy food where you'd buy your petrol!), you will enrich your life and your palate, and enlarge your sense of what it means to be healthy and happy. It's time to fall in love with food again. For the past twenty years, Michael Pollan has been writing about the places where the human and natural worlds intersect: food, agriculture, gardens, drugs, and architecture. His most recent book, about the ethics and ecology of eating, is *The Omnivore's Dilemma*, named one of the ten best books of 2006 by the New York Times and the Washington Post. He is also the author of *The Botany of Desire*, *A Place of My Own* and *Second Nature*. *Teen Spirit Guide to Modern Shamanism* is a light-hearted and informative handbook introducing an ancient spiritual practice to today's young adults and beginning seekers. Modern shaman and author S. Kelley Harrell, gives insight into growing from an intuitive youth into a mature facilitator of healing for others, covering the history and roles of the shaman, and their relevance in our shifting times. Complete with instructions on ecstatic journeying, this guide also presents how to incorporate shamanic insights into daily life, and how to talk with others about the modern shamanic path. A guide to weight loss is designed to address the psychological aspects of overeating that cannot be resolved through diet and exercise, drawing on 20 years of clinical and personal experience to counsel readers on how to nurture the body with whole foods and hunger-balancing activities. When Brendan Kane accepts a stranger's offer of work--two years on a ship departing the following morning--the nature of the journey isn't divulged. It matters not, though, for Kane is directionless himself, having just witnessed the Civil War's horrors only to return North with nothing but the clothes on his back and as many dead soldiers' letters as he could carry in his pockets. Aboard the mysterious Narthex, Kane meets a ramshackle crew that includes an eccentric doctor and a three-handed Muslim full of horrifying lore. Kane learns only that they're sailing for the Arctic in search of gold or maybe whales. But when it turns out the Narthex's destination is a temperate paradise hidden amidst glaciers--a mythical place--Kane and his cohorts must struggle to survive not only the bleak Arctic conditions, but the loosening grip on sanity of an egomaniacal captain and the data-obsessed doctor. With each second that passes, it seems increasingly unlikely any of them will get out alive.

From bestselling thriller author David Morrell comes a brooding tale about the coldest of deaths and their heartbreaking aftermath. Thomas De Quincey - the central character of Morrell's acclaimed Victorian mysteries, **MURDER AS A FINE ART** and **INSPECTOR OF THE DEAD** - was one of the most notorious and brilliant literary personalities of the 1800s. His infamous *Confessions of an English Opium-Eater* made history as the first book about drug dependency. He invented the word 'subconscious' and anticipated Freud's psychoanalytic theories by more than a half century. His blood-soaked essays and stories influenced Edgar Allan Poe, who in turn inspired Sir Arthur Conan Doyle to create Sherlock Holmes. But at the core of it all was a terrible tragedy. In this special-edition novella, based on real-life events, De Quincey shares the story of a horrific snowstorm fifty years earlier, in which a mother and father died and their six children were trapped in the mountains of the Lake District. Even more gripping is what happened after. This is the true tale of how De Quincey became the Opium-Eater, brought to life by an award-winning storyteller. An afterword contains photos of the dramatic locations in the story.

Offering a thought provoking theoretical conversation around ecological crisis and natural resource extraction, this book suggests that we are on a trajectory geared towards total extractivism guided by the mythological Worldeater. The authors discuss why and how we have come to live in this catastrophic predicament, rooting the present in an original perspective that animates the forces of global techno-capitalist development. They argue that the Worldeater helps us make sense of the insatiable forces that transform, convert and consume the world. The book combines this unique approach with detailed academic review of critical agrarian studies and political ecology, the militarization of nature and the

conventional and 'green' extraction nexus. It seeks radical reflection on the role people play in the construction and perpetuation of these crises, and concludes with some suggestions on how to tackle them.
