**Supported by the latest scientific data, this book
serves as a guide to the clinical assessment of**

women's health during the second half of life (post-reproductive years), including approaches to the management of the most frequent age-related diseases and disorders and the most recent advances in treatment. In addition, it discusses preventive aspects of healthcare in post-reproductive women, identifying lifestyle measures to enhance healthy aging. By highlighting research gaps, it promotes the development of quick and easy-to-use assessment tools and predictive markers of age-related co-morbidities. As such, the book is a valuable resource for researchers and clinicians alike.

This fun and creative title introduces young readers to baking in a format that is easy to read and use. Feeding your pet has never been so much fun! From cornbread bones to tuna snacks, Cool Pet Treats contains kid-tested, cool recipes that will have chi
